PAPER

**Please find below and/or attached an Office communication concerning this application or proceeding.**

The time period for reply, if any, is set in the attached communication.

<b>Office Action Summary</b>	<b>Application No.</b> 10/802,652	<b>Applicant(s)</b> KOGA ET AL.	
	<b>Examiner</b> Manish S. Shah	<b>Art Unit</b> 2853	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 09 September 2009.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☒ Claim(s) 1-13 and 15-20 is/are pending in the application.
- 4a) Of the above claim(s) 1-12 is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 13 and 15-20 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. Claims 13 & 15-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sanada et al. (# US 2003/0195275) in view of Ikemoto et al. (# JP 2001-081372).

Sanada et al. discloses a water-based ink for ink jet recording including a self-dispersible coloring agent ([0013], [0038]-[0042]); a propylene glycol ether ([0076]; and a surfactant, which has a general formula  $R-O-(CH_2CH_2O)_n-H$  ([0080]-[0082]). They also disclose that the amount of the solvent is added is preferably 3 to 50% by weight ([0077]) and surfactant is added in amount from 0.1 to 5% ([0081]). They also disclose that the content ratio by weight of propylene glycol ether/surfactant is 5 to 10 (see Examples). They also disclose an inkjet printer including an inkjet head, which has an ink flow passage formed of an Ni alloy and which discharges ink, and the ink cartridge to accommodate the ink (figure: 8-11; [0149]).

Sanada et al. discloses all the limitation of the water-based ink except that the surfactant represented by the general formula:  $R_1-O-(CH_2CH_2O)_n-SO_3M$ , wherein  $n$  represents an integer of 2 to 4,  $R_1$  represents an alkyl group having a number of carbon atoms of 12 to 15 and  $M$  represents Na or triethanolamine.

Art Unit: 2853

Ikemoto et al. teaches that the ink composition having the good storage stability characteristics, the ink composition includes a surfactant, which has a general formula  $R-O-(CH_2CH_2O)_n-SO_3M$ , wherein  $n$  is 2 to 50,  $R$  is alkyl group having 10 to 20 carbon atom, and  $M$  is organic amines or alkanolamines (see Abstract; [0016]-[0017]).

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the ink composition of Sanada et al. by the aforementioned teaching of Ikemoto et al. in order to have the good storage stability ink composition.

2. Claims 19 & 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Sanada et al. (# US 2003/0195275) in view of Ikemoto et al. (# JP 2001-081372) as applied to claims 13 & 15-18 above, and further in view of Horii et al. (# US 6871941).

Ouchi et al. and Ikemoto et al. discloses all the limitation of the ink composition except that the ink flow passage formed of an Ni-Fe alloy.

Horii et al. teaches that to have a high quality print head, inkjet head has a ink flow passage is formed of an Ni-Fe alloy (column: 14, line: 50-67).

It would have been obvious to one of ordinary skill in the art at the time of the invention to modify the ink passage of Sanada et al. as modified by the aforementioned teaching of Horii et al. in order to have high quality print head.

***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Manish S. Shah whose telephone number is (571) 272-2152. The examiner can normally be reached on 8:00am-4:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen D. Meier can be reached on (571) 272-2149. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
